

Cats Name: \_\_\_\_\_

Male or Female: \_\_\_\_\_

Description: \_\_\_\_\_

Birth Date/Age at Incoming Date: \_\_\_\_\_

Neutered/Spayed: \_\_\_\_\_

**ADOPTION FORM This is a legal and binding contract**

Please consider the adoption of this cat or kitten as a lifelong commitment. Cats can live 20+ years. Every cat needs patience, love, and understanding especially as he or she adjusts to the new home. It will continue to require kindness, affection, love and care throughout its life. Love your cat for the feeling individual that it is and this love will be returned in kind.

I agree to provide shelter, food, water and when needed, veterinary care. If not already spayed or neutered, I agree that I will not allow my cat(s) to reproduce and continue the problem of pet overpopulation, but will have my cat(s) spayed or neutered as early as medically possible. I will keep my new cat as a strictly indoor pet.

I will not give the cat away, abandon it, or turn it over to an animal control facility where it may be euthanized. If I must give the cat up at anytime, for any reason, I agree to consult with Spay and Neuter Today regarding the placement of the cat. I will only have the cat euthanized in the case of terminal illness or injury and will only have this procedure done by a licensed veterinarian.

Spay and Neuter Today does **not** adopt cats out that will be de-clawed. The stretching of claws is very important to the cat's emotional well-being. There are many wonderful scratching posts and toys available. Declawing is the equivalent of having your fingers cut off at the first knuckle. It is very painful, cruel, and can cause inappropriate potty habits. If scratching becomes a problem, I will contact Spay and Neuter Today for advice. If the cat has already been de-clawed at the time of adoption, I agree that it will be strictly an indoor cat.

**Please Print Information**

I will NEVER have my cat declawed  
\_\_\_\_\_ Please initial

I will keep my cat in my home as I realize it is  
not safe to be outdoors
